

Nature-inclusive Designs for Reconciling Offshore Renewables with Ocean Protection

Nature-inclusive designs (NiDs) are emerging as potential solutions for nature restoration or enhancement within renewable offshore infrastructure. NiD4OCEAN will build a strong knowledge base for this emerging field and **deliver science-based recommendations and tools** for industry, managers and policymakers to support the transition towards a blue economy.

Partners

Funded by the European Union

NiD4OCEAN, Nature-inclusive Designs for Reconciling Offshore Renewables with Ocean Protection (Grant Agreement no. 101156861) project is funded by the European Union under the Horizon Europe programme.

Consortia & Eco-Regions

13 Partners / 8 Countries

Research Institutes (4+1 affiliated), Universities (2),
Environmental NGOs (1), Non-profit Organization (1),
Offshore Wind Energy Developers (2), Standardization Body (1), SME (1)

3 Eco-Regions

 North Sea  Baltic Sea  Mediterranean Sea
